

Permission and Release Form Instructions

=====

The form is printed with two copies on one full sheet of paper. One copy is for the property owner and one copy is for the detectorist. Do not cut the sheet in half.

Each form (half-page) has two sections - the upper sections will be completed by the property owner and the bottom sections by the detectorist.

The detectorist should complete and sign the lower sections of *both* forms before arriving at the hunt location. It should be given to the huntmaster as you enter the hunt site.

Prior to the start of the hunt, the property owner will complete and sign their sections of the forms. The sheets will then be cut in half with one half being kept by the property owner and the other given to the detectorist.
